

Networking Dinner - May 7

Rutgers University Debut of its *FOOD INDUSTRY GETAWAY*

Rutgers University offers many programs of interest to the New Jersey food industry, and it has recently created a “Food Industry Gateway” portal that serves as a gateway to information and resources that will be of great interest to members of the New Jersey Food Processors Association. Through this portal, information of relevance to the food industry in New Jersey – such as programs at Rutgers in food science, nutrition science, sensory research, technology transfer, food business incubation, mass spectrometry, Rutgers Cooperative Extension and the many outreach programs that exist at the New Jersey Agricultural Experiment Station will all be available. In addition, information on opportunities to access student interns, and to fund research or sponsor programs, will also be available. At our next Networking Dinner, the following speakers will provide brief overviews of their programs, which are part of the Food Industry Gateway:

- **Margaret Brennan-Tonetta, PhD**, Associate Director of the New Jersey Agricultural Experiment Station and Associate Vice President for Economic Development at Rutgers
- **Mukund Karwe, PhD**, Chair, Department of Food Science and a specialist in high pressure processing, nutraceuticals, and engineering
- **Beverly Tepper, PhD**, Co-Founder and Director of the Center for Sensory Sciences and Innovation, Professor in Department of Food Science, and a specialist in the linkage between taste, diet and health
- **Lou Cooperhouse**, Acting Director, Rutgers Food Innovation Center

Come learn about the many ways your company can leverage the resources at Rutgers, The State University of New Jersey.

ROUNDTABLE SESSION

All NJFPA members are invited to the upcoming **QA Roundtable** on **May 13**.

Donna Schaffner and Jim Ebert from **Rutgers Food Innovation Center** will present a talk on "**High-lites from the 2014 Food Safety Summit Meeting: "What is the current and near-future regulatory focus for food processors?"**"

This event will be held **9:00 am - 11:00 am** at the **Rutgers Food Innovation Center**, 450 East Broad Street, Bridgeton, NJ 08302.

Thank you to **Comarco Products** for providing the refreshments for this session.

The roundtables are open to all **members of NJFPA** and are **free** of charge as a benefit to our members.

Please **RSVP** to Christine Higgins at christine@njfoodprocessors.org.

A NEW MEMBER BENEFIT

SUSTAIN, a NJ Food Processors Association member benefit program, is approaching its first year anniversary and stands at 92% of its first year workers' compensation premium goal. Workers' Compensation continues to be a very challenging line of coverage for insurance companies (i.e. insurers are losing money in WC overall). NJFPA members are being provided with an excellent opportunity through SUSTAIN to both control up front costs (i.e. year 1) as well as long term WC premiums based on an approach that includes aggressive claims handling and a Risk Management Service Plan in place for each client. SUSTAIN WC program participants are being provided with access to services as if they were paying \$1 million plus in premium for their own workers' compensation insurance policy.

Whether your business has experienced some short term pain in workers' compensation or you believe you are outperforming your peers in terms of your overall claims experience and not seeing the reduction in costs that you would expect, consider SUSTAIN and the WC advantages it is bringing to NJFPA members. Widerman & Company administers the workers' compensation program; Shawn Knechtel can be contacted by phone or e-mail to respond to inquiries; (856) 428-0939, x112 / sknechtel@widerman.com

FROM FARM TO FORK
THE FOOD INDUSTRY IN THE GARDEN STATE SERVES YOU

MONDAY, JUNE 23, 2014
9 AM – 1 PM

NEW JERSEY STATE HOUSE
TRENTON, NEW JERSEY

HOSTED BY:

A NEW MEMBER BENEFIT

Great news! There's a new benefit available to you as a member of the NJ Food Processors Association – exclusive savings that'd otherwise be unavailable to you and your business.

Does your company operate one or more business vehicles? Would you like to lower vehicle management costs, save on every gallon of fuel*, and have the ability to set driver spending limits? **Then our new NJFPA member benefit is ideal for you: the Sunoco Fleet Fuel Program.**

With today's gas prices, now more than ever you must tightly monitor and contain the fuel costs of your company vehicles. Doing so requires in-depth transaction data, greater flexibility, and controls that are much tighter than those that bank card alternatives can provide.

It's why we at Sunoco® strongly recommend the **Sunoco SunTrak®** or the **Sunoco Universal Fleet Card** to help you effectively manage your fleet – and significantly streamline both fleet costs and operational processes.

The Sunoco Fleet Fuel Program not only gives you access to highly granular data on individual driver transactions – a must for today's cost-conscious fleet manager – but can help you build an effective fleet management strategy and make critical decisions, including which data needs to be tracked, how to adjust driver behavior and/or vehicle usage, and how to best implement new policies.

Better yet? **You'll receive a monthly fuel rebate exclusive to NJFPA members:**

Monthly Gallons Purchased at Sunoco	SUNTRAK per Gallon Rebate*	Savings per Gallon**
1 – 2,999	2.25%	9¢
3,000 – 5,999	2.5%	10¢
6,000+	3% Automatic for all if NJFPA reaches 25K gallons/mo.	12¢

Monthly Gallons Purchased at Sunoco	SUNOCO UNIVERSAL per Gallon Rebate*
1 – 2,999	1.5¢
3,000 – 5,999	3¢
6,000+	5¢

*Applicable to regular and diesel fuel. **Example at \$3.85 per gallon.
